

general information:

functional characteristics:

The anti-theft-fuel-device is assembled on the existing filler neck and fixed by rivets, screws or special adhesive depending on the model. Based on the robust and high quality construction it is easy to guard against unintentional fuel removal.

advantages through the PATENTED system:

- ⌘ easy to fix
- ⌘ no backlash during fueling
- ⌘ effective fixation through pressure of rivets
- ⌘ assembly kit to each item - no additional parts for fixation necessary
- ⌘ optimal height in total - only minimum siphoning for full filled tanks possible
- ⌘ optimal height in total - no problems for the trailers movement
- ⌘ fuel tightness - no leaking around the fixed anti theft device
- ⌘ reusable for leasing trucks
- ⌘ high quality material
- ⌘ patented system

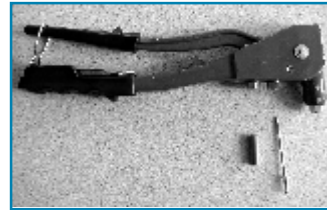

benefit:

SAVE FUEL COSTS

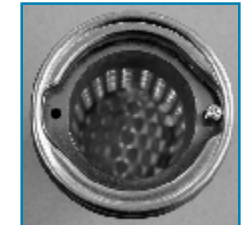

anti-theft-fuel-device

assembly methods:

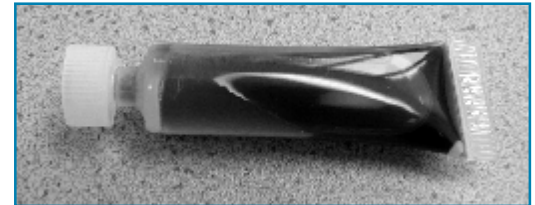

rivets Ø -7001, -7003, -7004

screws Ø -7002, -7008

metal adhesive Ø -7005, -7006

2 compound epoxy adhesive Ø -7007

anti-theft-fuel-device

item no.: 16080-00-7001

specification: KDS d80

useable for: Mercedes, Volvo, MAN
DAF, IVECO, Renault
generally for all filler necks with
a nominal of 80 (DIN 73400)

weight: 0,50 kg

material: zinc coated steel

**inside height
of the filler neck:** 26 mm

order quantities: 8 pcs. / carton > single packed

anti-theft-fuel-device

item no: 16060-00-7002

specification: KDS d60 Scania

useable for: Scania type 4

weight: 0,68 kg

material: zinc coated steel

**inside height
of the filler neck:** 20 mm

order quantities: 8 pcs. / carton > single packed

anti-theft-fuel-device

<u>item no:</u>	16060-00-7003
specification:	KDS d60
useable for:	generally for all filler necks with a nominal of 60 (DIN 73400)
weight:	0,35 kg
material:	zinc coated steel
inside height of the filler neck:	20 mm
order quantities:	8 pcs. / carton > single packed

anti-theft-fuel-device

item no: 16080-00-7004

specification: KDS d80 Atego

useable for: especially for Mercedes Atego
plastic tank

weight: 0,57 kg

material: zinc coated steel

**inside height
of the filler neck:** 26 mm

order quantities: 8 pcs. / carton > single packed

anti-theft-fuel-device

item no: 16060-00-7005
specification: KDS d60 Thermo King
useable for: cooling unit Thermo King

weight: 0,47 kg
material: zinc coated steel

order quantity: 6 pcs. / carton > single packed

anti-theft-fuel-device

item no: 16060-00-7006

specification: KDS d60 Carrier

useable for: cooling unit Carrier

weight: 0,47 kg

material: zink coated steel

order quantities: 6 pcs. / carton > single packed

anti-theft-fuel-device

item no: 16060-00-7007

specification: KDS d60 Eurocargo until 2004

useable for: Iveco Eurocargo until 2004
plastic tank

weight: 0,55 kg

material: zinc coated steel

order quantities: 8 pcs. / carton > single packed

anti-theft-fuel-device

item no: 16060-00-7008

specification: KDS d60 Eurocargo from 2004

useable for: Iveco Eurocargo from 2004

weight: 0,70 kg

material: zink coated steel

order quantities: 8 pcs. / carton > single packed
